### **Iraq Telecommunications Company Itisaluna Selects PhoenixSoft's Cirrus Softswitch for Nationwide Network**

**Phoenix, Arizona...February 19, 2008...**PhoenixSoft, Inc., a pioneering provider of next-generation communications platforms for converged networks, announced today that Itisaluna Iraq ("Itisaluna"), an emerging nationwide telecommunications operator serving the republic of Iraq, has selected PhoenixSoft's Cirrus Softswitch for its nationwide network servicing pre-paid and post-paid calling services.

Itisaluna services include nationwide fixed-line voice, broadband and wireless products and will be based on the latest technologies and network architectures. With the Cirrus Softswitch deployment, the company expects to establish new revenue streams, offer affordable international calling, attract customers from other operators and increase voice traffic on the Itisaluna network.

"We're very excited to work with Itisaluna in building a next-generation telecommunications infrastructure within Iraq," said Paul Amick, PhoenixSoft's co-founder. "We expect our Cirrus Softswitch to provide a robust and efficient network, as well as deliver all the features, benefits and applications required to help make Itisaluna a major international provider."

PhoenixSoft's Cirrus Softswitch offers turn-key or hosted solutions. Specific capabilities include:

- Class 4 Features
- Class 5 Features
- Integrated IP Transcoding
- Integrated Session Border Controller
- Pre-Paid/Post-Paid/Stored Value
- Integrated IP PBX
- Integrated Customer Service
- E911 Compliant
- Quality, Comprehensive Support
- Fully Documented On-Line Help
- Fully Scalable from low to heavy traffic
- Partitioned Access for Resellers/Agents

In addition, PhoenixSoft offers a comprehensive billing application and a Retail Web Portal that fully integrate within the Cirrus Softswitch. The Retail Web Portal features on-line ordering and payment processing, customizable screens, unlimited automated capabilities and password-protected customer sites. The client/server-based Billing solution delivers call rating and tariffing, customer care, provisioning, accounts receivable, work order/trouble ticket processing, data export to general ledger and financial packages, plus much more.

## **About PhoenixSoft**

Since 1985, PhoenixSoft has developed a long and distinguished track record within the telecommunications industry as an innovative provider of telephony solutions for converged networks. The company provides enhanced switching through its Cirrus Softswitch, Convergent Billing and Retail Web Portal solutions. PhoenixSoft's customized real-time multimedia telephony platforms deliver carrier-grade voice quality, reliability and scalability for service providers, carriers and enterprises. The company has deployed advanced switching solutions throughout North America, South America, Europe and the Middle East. For more information, visit <http://www.phoenixsoft.com>.
